APIA, SAMOA, May 1 .- The shipwrecked officers and crew of the United States menof-war Trenton and Vandalia, leave here on the steamer Rockton to-day for Mare Island Navy yard. Owing to reports which had been received here recently it was thought that the Oceanic steamship Mariposa would stop at Apia last Sunday, April 28, and take 300 of the men to San Francisco.

Preparations were made for the Mariposa's arrival, and the men were selected to be sent away in the steamer. The steamer Lubeck arrived here from Sydney on Sunday, and re-ported that Lieutenant J. C. Wilson, who was sent to Auckland and Sydney to charter a steamer, had engaged the 2,000-ton steamer Rockton, belonging to the Australian United Steam Navigation Company.

The Mariposa did not call at Apia at all, but passed the islands at Tutuila. The mail schooner which went to Tutulla to connect with the Mariposa had not returned here at the time the Rockton sailed for America, and it was not known whether she had connected with

A WELCOME SIGHT.

The Rockton arrived here from Sydney April 29, and when she was first sighted outside of the harbor the Trenton and Vandalia sailors. who have been living in barracks since the storm, greeted her with loud cheering. Admiral Kimberly decided to send away every manthat the steamer could take. The work of loading the Rockton commenced the next day. All of the survivors of the Vandalia, in-cluding 8 officers and 142 men, and 12 officers and 300 men from the Trenton were sent

and 300 men from the Trenton were sent aboard.

Beside the Admiral and his staff 10 officers and 75 men remain here. The Rockton was anchored in the hay about a quarter of a mile from shore, and the men were commanded to go aboard in small beats about 1 o'clock yesterday afternoon. The Trenton's band was first to go aboard, and as the boat left the dock the band played a national air and 500 sailors sailore united in a great cheer. Every boat was cheered heartly as it pushed off from shore. The boats had to pass close to the wrecks of the Trenton and Vandalia.

All of the men and baggage were aboard before evening, but a few final arrangements were not completed and the Bockton was not able to sail until the following morning. Nearly the whole population of Apia was on the beach when the steamer left her moorings and steamed out to sea, and for a few minutes loud cheers were heard in every direction. The crews of the men-of-war Nipsic and Rapid and hundreds of people on the beach cheered the departing steamer and the Trenton and Vandalia men on the decks of the Rockton returned the cheers with a will.

THOSE WHO REMAIN.

THOSE WHO REMAIN

The 75 men who remain here are in charge of Lieutenant Commander Lyon. It is supposed they will either be sent home in the course of another month or be transferred to other American war ships which may arrive here. American war ships which may arrive here. The departure of the shipwrecked sailors is greeted with a feeling of relief, as Apia is not large enough to accommodate such a number of men without great confusion resulting, and it has been feared that serious illness might break out in the town owing to the crowded quarters of the men.

Admiral Kimberly received the following letter from Mataafa a few days after he had issued his proclamation advising the natives to

were to protect and give their support to it and be the sole master of all Samoa without the interference of any other power; for in years gone by we have been endeavoring to form a strong government on the basis of protection strong government on the basis of protection by three powers. In consequence Samon has been constantly torn to pieces and many lives have been lost, and the country has been brought down to a very low condition. On this account, we are sure that recurrence of the triple system would be useless. If now one power took charge of Samon and continued to do so forever, then Samon would for the first time enjoy standing property. In place were time enjoy standing prosperity. I place every hope in your good wishes toward Samoa, and hope you will not draw back from them. May you live. Your brother "in the Lord."

MALIETOA MATAAFA, King of Samoa. Admiral Kimberly replied to Mataafa's let-ter as follows:

APIA, April 24. To His Boyal Highness, Malleton Matanfa.

To His Boyal Highness, Malletoa Mataafa.

Your Royal Highness—Your letter dated April 21 received yesterday, and read with great care and interest. The previous day I also received one from Tamasese. In it he says nothing of peace except on the conditions of submission. His heart has not yet been penetrated by the evils of war nor softened by the sufferings of the people. Your noble sentiments for the welfare of Samoa, as shown in your sincers expressions for peace, and by council of your chiefs and rulers, prove that you and they have the true feelings that govern men who love their country better than themselves. Such men are they who

BEAR THE BURDENS and responsibility of troublous times that surge over the land, as the ocean waves surge against the shore. They are strong men against whom the weak can lean like the vine against the tree, May your services and wis-dom long be spared to Samoa. The United States now, as far as I know, are in convention States now, as far as I know, are in convention with the other two treaty powers, and I can assure you that, as far as she is able, her efforts will be directed to obtain those points that will advance and promote the interests of all Samoa in every respect, and the evils that have heretofore afflicted the country will, if not extinguished, at least be diminished. Have, therefore, good heart. The day of rest and peace and prosperity is not so far away but that its coming, like the dawn, can be seen before the rising sun. A copy of your letter will be forwarded by the first mail to Washington for the information of the Government. Trusting that you may have good health and you long may be spared, I remain, very respectfully.

Your obedient servant,

Rear Admiral, U. S. N., of the Pacific statio Rear Admiral, U. S. N., of the Pacific station.

Admiral Kimberly declined to make the correspondence between himself and Tamasese public, stating they must first go before the department at Washington. An effort was made to obtain the correspondence between the Admiral and Tamasese from Dr. Knappe, the German Cousul, but the latter declined to give it out for publication. Consul Knappe said he cid not think that Admiral Kimberly's proclamation would amount to anything, as the Samoans were an indifferent people, and would read the proclamation once and forget all about it afterward.

A NEW GERMAN CONSUL. Dr. Steubel, the new German Consul at Apia,

arrived here on the steamer Lubeck, from Syd ney, April 28. The Associated Press correspon-dent had a short interview a few days ago with gent had a short interview a few days ago with Mataafa. He said his people were greatly pieased with the advice published in the Ad-miral's proclamations, and felt very grateful for the interest which the Americans had taken in their cause. The present war was a great hardship to the country, and the people wanted peace. They had no desire to fight Tamasese or the Germans.

peace. They had no desire to fight Tamasese or the Germans.

He said he would like to see the American Government declare a protectorate over the Samoaus. He thought that was the best way to avoid trouble, as the natives were continually fighting among themselves, when the Consults for the United States, Germany and England had equal power. Affidavits had been prepared, under the direction of Matanfa, which have been forwarded to the State Department at Washington, in reference to the December battle, to be presented at the Berlin conference. These affidavits are made by Seumanu Tafa, the Chief of Apia, and the Governor of the Tamassaga district and by a number of other natives who were present during the fight. Witnesses declare that the Germana commenced the fighting, and killed one native and wounded another before a shot was fired by the Samoaus.

MORE TROUBLE. An attack was made by some of Tamasese's men one week ago upon two natives belonging

to the Mataafa party. The Mataafa men were passing a house at Falefa, a short distance from Tamasese's camp, when a number of Tamasese's men concealed in the house fired upon them. Both men year silestly wounded but succeeded Both men were slightly wounded, but succeeded in making their escape. A number of Mataafa's warriors stationed in that vicinity were very much excited and threatened to make an attack upon Tamasese, but were persuaded to use no violence and to allow the incident to pass unnoticed.

ass unnoticed.

The natives have succeeded in recovering a safe containing \$15,000 from the wreck of the German gunboat Eber. Native divers are still at work on the wreck of the Eber making an effort to save the guns. The battery and other articles of value of the German craiser Adler were taken ashore some time ago. The rudder for the Nipsic, which Admiral Kimberly had under his personal supervision, has been completed and placed in position, and it is probable that the Nipsic will start for Auckland as soon as the Alert arrives here.

that the Nipsic will start for Auckland as soon as the Alert arrives here.

The British man of war Rapid, which left here ten days ago, returned on the 27th. Her captain reported upon his return that he had been to Suwarrow, a small island about 400 miles east of Samoa. He stated that the island was occupied several years ago by a resident of Auckland for the purpose of raising occoanuts, and that at the latter's request the Rapid had gone there and raised the British flag and formally annexed the island as a part of the British possessions.

A Number of Important Bills Made Laws by General Beaver. Special Telegram, to The Dispatch.

HARRISBURG, May 20.-The Governor this evening signed Senator Delamater's bill pro-viding for the incorporation and regulation of savings banks without capital stock, established for the encouragement of saving money. Sena-tor Delamater introduced this measure at the request of Postmaster General Wanamaker. It is similar to a law in operation in New York. The Governor also approved the bill to pro-tect women and children who work in factories tect women and children who work in factories and mercantile industries. It provides for one State Factory Inspector at \$1,500 and six deputies at \$1,200 a year. The bill is modeled on a law of England, and was warmly supported by Judge Kelly's daughter and other women. The act forbids minors from being employed longer than six hours a day in factories.

The Governor also signed the following bills: Authorizing companies incorporated for the supply of water to the public, or for the supply of water and water power for commercial and manufacturing purposes, to condemn property and rights for the purpose of obtaining and supplying water or water power; providing for extension of time to corporations that have commenced work on buildings or other improvements.
